

Detailed
PRODUCT OVERVIEW

CHOCK-FULL OF VITAL GOODNESS!

See our product overview for more information about what we use.

Vet-Concept has a heart for dogs and cats. We are pet owners ourselves and know about the importance of a healthy, balanced food for our four-legged friends. For this reason Vet-Concept products meet the highest quality standards.

But why not see for yourself? The pages which follow contain detailed information on our product range: all ingredients and nutrients. From dry and wet food to vegetables and cereals up to food supplements. And when it comes to additives we want to provide clarity – Vet-Concept, we stand for transparency.

vitamin A 2,000 IU, vitamin D3 200 IE, vitamin E 25 mg, vitamin B1 12 mg, vitamin B2 6.5 mg, vitamin B6 3.5 mg, vitamin B12 75 mcg, folic acid 0.6 mg, biotin 290 mcg, zinc 15 mg, manganese 3 mg, iodine 0.75 mg, selenium 0.03 mg

**REINDEER**

Soft premium food for dogs

INDICATIONS

Meat and animal by-products (reindeer meat), vegetables (potato), minerals

ANALYTICAL COMPONENTS:
crude protein 11,2 %
digestible crude protein 10,3 %
crude fat 6,2 %
crude fibre 0,5 %
crude ash 2,1 %
moisture 75,0 %
calcium 0,40 %
phosphorus 0,25 %
sodium 0,15 %
magnesium 0,03 %
potassium 0,20 %
digestible energy 548 kJ/100 g

vitamin A 3,000 IU, vitamin D3 200 IE, vitamin E 30 mg, vitamin B1 12 mg, vitamin B2 6.5 mg, vitamin B6 3.5 mg, vitamin B12 75 mcg, folic acid 0.6 mg, biotin 290 mcg, zinc 15 mg, manganese 3 mg, iodine 0.75 mg, selenium 0.03 mg

**BEEF**

Soft premium food for dogs

INDICATIONS

Meat and animal by-products (beef), cereals (wholegrain rice), vegetables (carrots, leek), minerals

ANALYTICAL COMPONENTS:
crude protein 12,6 %
digestible crude protein 11,6 %
crude fat 6,2 %
crude fibre 0,5 %
crude ash 1,6 %
moisture 77,3 %
calcium 0,40 %
phosphorus 0,25 %
sodium 0,15 %
magnesium 0,03 %
potassium 0,20 %
digestible energy 527 kJ/100 g

vitamin A 2,000 IU, vitamin D3 200 IE, vitamin E 25 mg, vitamin B1 12 mg, vitamin B2 6.5 mg, vitamin B6 3.5 mg, vitamin B12 75 mcg, folic acid 0.6 mg, biotin 290 mcg, zinc 15 mg, manganese 3 mg, iodine 0.75 mg, selenium 0.03 mg

**GAME**

Soft premium food for dogs

INDICATIONS

Meat and animal by-products (game meat, lamb meat), baked products (noodles/pasta made from durum wheat flour), vegetables (carrot, leek), minerals

ANALYTICAL COMPONENTS:
crude protein 11,7 %
digestible crude protein 10,8 %
crude fat 5,6 %
crude fibre 0,5 %
crude ash 2,4 %
moisture 77,1 %
calcium 0,40 %
phosphorus 0,25 %
sodium 0,15 %
magnesium 0,03 %
potassium 0,20 %
digestible energy 500 kJ/100 g

vitamin A 2,000 IU, vitamin D3 200 IE, vitamin E 25 mg, vitamin B1 12 mg, vitamin B2 6.5 mg, vitamin B6 3.5 mg, vitamin B12 75 mcg, folic acid 0.6 mg, biotin 290 mcg, zinc 15 mg, manganese 3 mg, iodine 0.75 mg, selenium 0.03 mg

**GOAT**

Soft premium food for dogs

INDICATIONS

- Protein selection
- Stomach & Intestines
- Skin & Coat
- Immune system

COMPOSITION

Meat and animal by-products (goat meat), vegetables (parsnip), oils and fats (hemp oil), minerals

ANALYTICAL COMPONENTS:

crude protein	10.3 %
digestible crude protein	9.5 %
crude fat	6.2 %
crude fibre	0.4 %
crude ash	2.3 %
moisture	76.0 %
calcium	0.35 %
phosphorus	0.22 %

vitamin A 12,000 IU, vitamin D3 1,200 IE, vitamin E 200 mg, vitamin B1 3 mg, vitamin B2 3 mg, vitamin B6 2,5 mg, vitamin B12 45 mcg, pantothenic acid 7,5 mg, niacin 30 mg, biotin 250 mcg, folic acid 2 mg, iron 80 mg, iodine 2 mg, copper 8 mg, manganese 5 mg, selenium 0,15 mg, zinc 80 mg

vitamin A 5,000 IU, vitamin D3 1,000 IU, vitamin E 40 mg, copper 4,5 mg

For a dog weighing 30 kg add 1 tablespoon (15 g) to 150 ml warm water, for cats add approx. 5 g to 50 ml. After 10 minutes soaking time, the Fresh Carrot Pellets can be added to the feed. For weight loss, replace the main feed by the soaked quantity of pellets.

Please note
Should always be soaked before feeding.

Average values:
 2 to 5 kg < 5 g
 5 to 15 kg 5 to 10 g
 15 to 30 kg 5 to 20 g
 30 to 50 kg 10 to 35 g

Quantities indicated refer to the dry product. One tablespoon is equal to 5 g of dry VEGETABLE SELECTION.

Please note
Should always be soaked before feeding. brief boiling or puréeing of the mixture will improve digestibility.

Average values:
 5 to 10 kg 50 to 100 g
 10 to 20 kg 100 to 200 g
 20 to 35 kg 150 to 250 g
 35 to 50 kg 200 to 350 g

Quantities indicated refer to the dry product. 1 dessert spoon corresponds to around 7 g of dry GRAINFLAKES.

To prepare, soak for 10 minutes with twice the amount of water to product.

Average values:
 Cats 20 to 30 g
 Dogs (5 to 10 kg) 50 to 100 g
 Dogs (10 to 20 kg) 100 to 200 g
 Dogs (20 to 35 kg) 150 to 250 g
 Dogs (35 to 50 kg) 200 to 350 g

Quantities indicated refer to the dry product. 1 dessert spoon corresponds to around 2 g of dry MILLET. Cover MILLET with the same quantity of hot water and allow to soak for 5 minutes. Any excess water can be poured off after cooking or added to the food.

Average values:
 Cats & Dogs
 (5 to 10 kg) 10 to 20 g
 Dogs (10 to 20 kg) 20 to 30 g
 Dogs (20 to 35 kg) 30 to 50 g

Quantities indicated refer to the dry product. 1 dessert spoon corresponds to around 3 g of dry POTATO FLAKES.
 To prepare, mix the corresponding amount of POTATO FLAKES with seven times the quantity of hot water and allow to soak for around three minutes.

Average values:
 5 to 10 kg 50 to 100 g
 10 to 20 kg 100 to 200 g
 20 to 35 kg 150 to 250 g
 35 to 50 kg 200 to 350 g

Quantities indicated refer to the dry product. 1 dessert spoon corresponds to around 7 g of dry NOODLES.
 To prepare, pour hot water onto the corresponding quantity of NOODLES, completely covering the portion, and allow to soak for 10 to 20 minutes. Any excess water can be poured off after cooking or added to the food.

**WHOLEGRAIN RICE**

RECOMMENDED DAILY FEED QUANTITY					

COMPOSITION

ANALYSIS

ADDITIVES/KG/L

RECOMMENDED DAILY FEED QUANTITY

**CAT-BIO-DARMGEL**

For Cats
Hairball protection

- Indoor cats and long-haired cats**
- Digestive disorders
- Constipation

Oils and fats, vegetable by-products, malt extract, whey powder

crude protein 0.6 %, crude fat 95.0 %, crude fibre 0.1 %, crude ash 2.5 %

vitamin E 1,000 mg

Give 1 teaspoon of Cat Organic Digestion Gel 3 times a week (approx. 5 ml) added to the food or administered directly into the animal's mouth. If necessary can also be applied to the paws for the animal to lick off. Young cats should be given half the dose.

**CAT REVITAL WITH TAURINE**

For Cats
Build-up concentrate

- Boosting the immune system with taurine**
- Diseases and Disorders
- Senior Cats

Oils and fats, whey powder, yeast, DL-methionine

crude protein 8.5 %, crude fat 24.5 %, crude fibre 0.1 %, crude ash 2.5 %

taurine 10,000 mg, vitamin E 4,000 mg, vitamin D3 25,000 IE, vitamin B1 100 mg, vitamin B2 80 mg, vitamin B6 50 mg, vitamin B12 1,000 mcg, choline chloride 13,500 mg, niacin 450 mg, biotin 4,000 mcg, calcium pantothenate 150 mg

**DENTA-KOMPLEX**

For Dogs and Cats
Dental health

- Plaque & tartar**
- Inflammation of the gums
- Bad breath

Natural seaweed, silicates

crude protein 7.8 %, crude fat 1.1 %, crude fibre 3.2 %, crude ash 23.0 %, iodine 0.006 %

vitamin A 400,000 IE, vitamin E 10,000 mg, vitamin B2 300 mg, vitamin C 20,000 mg, biotin 300,000 mcg, choline 1,000 mg, iron 2,000 mg, zinc 2,000 mg, copper 400 mg, Diatomaceous earth 160,000 mg, DL-methionine 10,000 mg

Cats & small dogs (4 to 15 kg) 1 ms

Medium-sized dogs (16 to 39 kg)..... 1 1/2 ms

Big dogs (40 to 70 kg)..... 2 ms

1 measuring spoon is equal to 0.7 g.

DENTA-KOMPLEX should be added to the feed. Visible results will be achieved after around 3 weeks. Administration over a longer period is possible without any problems and is also recommended.

**DERMA-KOMPLEX**

For Dogs
Skin & Coat

- Coat change, hair loss**
- Dermatitis
- Dull coat, dandruff

Herbs (nettle, chamomile, common horsetail, marshmallow, yarrow), dextrose, calcium gluconate, calcium carbonate, brewer's yeast, garlic, sodium sulphate, linseed oil, seaweed meal, magnesium gluconate

crude protein 6.7 %, crude fat 6.1 %, crude fibre 4.4 %, crude ash 31.3 %, calcium 2.50 %, methionine 1.0 %, sulphur 1.3 %, magnesium 0.10 %

biotin 333,000 mcg, zinc 400 mg

Cats & small dogs (4 to 15 kg) 1 ts

Medium-sized dogs (16 to 39 kg)..... 2 ts

Big dogs (40 to 70 kg)..... 3 ts

1 measuring spoon is equal to 4 g.

To achieve the optimum effect, the product should be administered as a 3-month programme of treatment - however for 6 weeks as a minimum. Also suitable for longer term use as required.

**GAG PLUS**

For Dogs. Strengthening of the musculoskeletal system

- Muscles**
- Bones
- Joints

Algae powder (Chlorella vulgaris), shellfish concentrate (glucosamine HCL), herbs (nettle, chamomile, willow), Devil's claw, calcium gluconate, calcium phosphate, dicalcium phosphate, linseed oil

crude protein 30.4 %, crude fat 10.6%, crude fibre 5.1%, crude ash 15.7 %, calcium 3,50 %, phosphorus 1,10 %, sulphur 0.9 %, lysine 8,0 %, methionine 4,0 %, GAG (glucosamine HCL) 1,500 mg/10g

vitamin C 20,000 mg, vitamin D3 20,000 IE, vitamin E 20,000 mg, manganese 2,000 mg, iron 1,000 mg, zinc 1,000 mg, copper 150 mg, iodine 10 mg, selenium 10 mg, L-lysine 80,000 mg, DL-methionine 40,000 mg

Cats & small dogs (4 to 15 kg) 1/4 to 1/2 ms

Medium-sized dogs (16 to 39 kg)..... 1/2 to 1 ms

Big dogs (40 to 70 kg)..... 1 to 3 ms

1 measuring spoon is equal to 5 g.

To achieve the optimum effect, the product should be administered as a 3-month programme of treatment as a minimum. For chronic joint problems, we recommend that the feeding duration is extended.

Cats & small dogs (5 to 10 kg) 1/2 ts Medium-sized dogs (10 to 30 kg)..... 1 ts Big dogs (over 30 kg) 2 ts 1 teaspoon corresponds to around 4 g.
	To achieve the optimum effect, the product should be administered as a 2-3 week program of treatment. Administration can be repeated as required on a monthly basis.					
	Please note Due to the fishy flavour, we recommend that this product is stored in a cool place and added to the feed gradually.					

**NACHTKERZENÖL**

For Dogs and Cats
Essential fatty acids

- Dermal protection & inflammations
- Immune deficiencies
- Increased requirement

COMPOSITION

crude fat 99.5 % (of which linoleic acid 74 %, gamma-linolenic acid 12 %), crude fibre 0.1 %

ADDITIVES/KG/KG

Small dogs (up to 20 kg)..... 6 to 10 drops
Small dogs (over 20 kg)..... 10 to 20 drops
30 drops are equal to approx. 1 ml.

**NATURAL SLIM**

For Dogs and Cats
Weight Reduction

- Overweight animals (obesity)
- Diabetes Mellitus
- Digestive disorders of the large Intestine

ANALYSIS

crude protein 25.0 %, crude fat 5.8 %, crude fibre 25.0 %, crude ash 11.0 %, sodium 0.50 %, calcium 2.50 %, phosphorus 1.20 %, magnesium 0.11 %

RECOMMENDED DAILY FEED QUANTITY**RELAX-LIQUID**

For Dogs and Cats
To reduce acute stress

- Anxiety, nervousness
- Travel stress, transporting
- Accidental soiling (cats)

RECOMMENDED DAILY FEED QUANTITY**RELAX PLUS**

For Dogs. Nervous system metabolism & nerve stimuli

- Anxiety, nervousness
- Agitation, irritability
- Willingness to learn

RECOMMENDED DAILY FEED QUANTITY**RENA-KOMPLEX**

For Dogs and Cats
Kidneys and urinary tract

- Blood and lymph circulation
- Fluid excretion
- Urinary stones, reduction of pH

RECOMMENDED DAILY FEED QUANTITY

crude protein 0.2 %, crude fat 0.3 %, crude fibre 0.3 %, crude ash 0.1 %, moisture 99.1 %

RECOMMENDED DAILY FEED QUANTITY

crude protein 9.8 %, crude fat 3.4 %, crude fibre 0.6 %, crude ash 19.2 %, magnesium 8.00 %, calcium 1.50 %, sodium 0.10 %

RECOMMENDED DAILY FEED QUANTITY

crude protein 8.8 %, crude fat 3.6 %, crude fibre 6.2 %, crude ash 26.9 %, chloride 7.0 %, sodium 6.50 %, potassium 1.00 %, calcium 1.60 %, magnesium 0.10 %, phosphorus 0.10 %, omega-3 fatty acids 0.6 %

RECOMMENDED DAILY FEED QUANTITY

vitamin A 50,000 IU, vitamin E 25,000 mg, vitamin B1 1,000 mg, vitamin B2 600 mg, vitamin B6 2,500 mg, vitamin B12 250,000 mcg, vitamin C 5,000 mg, niacin 4,000 mg, L-lysine 50,000 mg, L-tryptophane 50,000 mg

vitamin A 1,200,000 IE, vitamin B1 1,600 mg, vitamin B2 600 mg, vitamin B6 600 mg, vitamin C 20,000 mg, vitamin E 5,000 mg, folic acid 2,000 mg, zinc 4,000 mg, iron 3,000 mg, selenium 20 mg, DL-methionine 40,000 mg

To maintain weight:
Deduct 5 % of the daily dry food and replace with the following quantity of Natural Slim:
Small dogs (4 to 15 kg).... 1 to 2 ms
Medium-sized dogs (16 to 40 kg)..... 2 to 3 ms
Big dogs (40 to 70 kg)..... 3 to 5 ms
Cats 1 to 2 ms

For animals with Diabetes mellitus:
For animals at a normal weight who have Diabetes mellitus, we advise that the quantities recommended above are added to the normal daily feed amounts

One level measuring spoon of Natural Slim contains approx. 12.5 g.

Cats & dogs (4 to 20 kg)..... 7 to 20 drops
Dogs (20 to 39 kg)..... 20 to 40 drops
Dogs (40 to 70 kg)..... 40 to 50 drops

20 drops are equal to approx. 1 ml.

For an optimum effect in acute and planned stressful situations (e.g. pending trip to the vet), we recommend that the corresponding amount of drops are administered to the dog or cat initially two hours prior to the stressful situation and then again one hour beforehand. For long-term use (e.g. moving house), give the drops once a day for a period of five days

Small dogs (4 to 15 kg)..... 1/4 to 1/2 ms
Medium-sized dogs (16 to 39 kg)..... 1/2 to 1 ms
Big dogs (40 to 70 kg)..... 1 to 2 ms

1 measuring spoon is equal to 8 g.

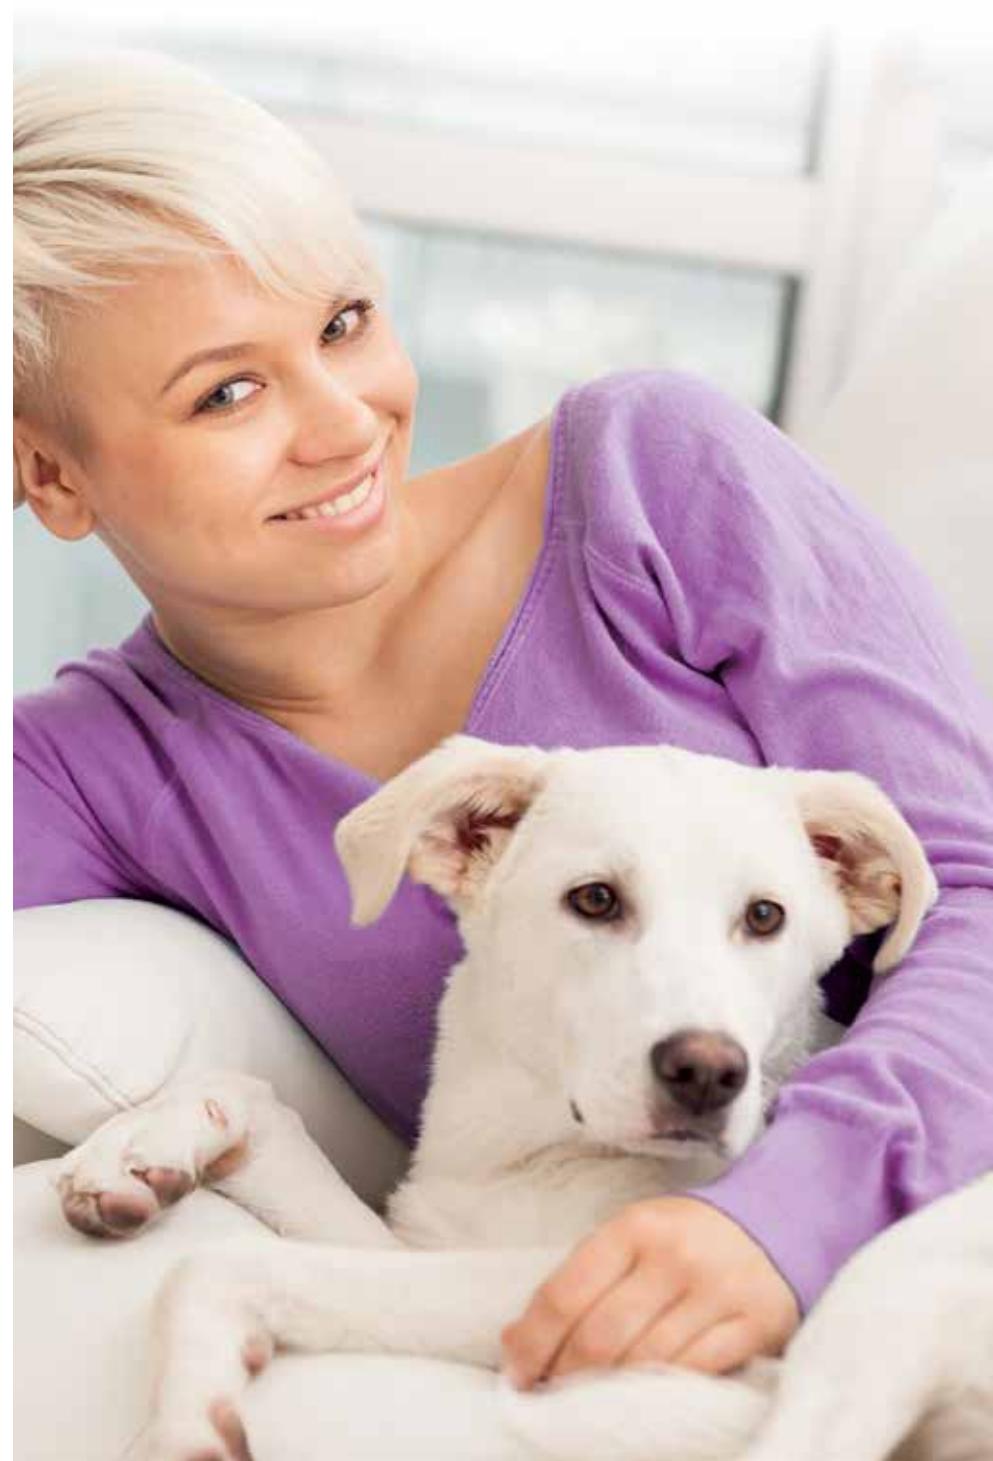

To achieve the optimum effect, the product should be administered as a 3-week programme of treatment as a minimum, but is also suitable for long-term use as required.

Cats & small dogs (4 to 15 kg)..... 1/4 to 1 ms
Medium-sized dogs (16 to 39 kg)..... 1 to 2 ms
Big dogs (40 to 70 kg)..... 2 to 4 ms

1 measuring spoon is equal to 4 g.

Please note
To achieve the optimum effect, the product should be administered as a 3-6 week programme of treatment as a minimum, but is also suitable for long-term use as required. Do not combine with other urinary acidification products Always provide fresh and freely available drinking water for your pet.

Please note For animals in a poor general condition, the dose can also be doubled as an intensive treatment programme over a period of 3 weeks.	Small dogs (4 to 15 kg)..... 1/2 ms Medium-sized dogs (16 to 39 kg)..... 1/2 to 1 ms Big dogs (40 to 70 kg) .. 1 to 2 ms 1 measuring spoon is equal to 15 g. To achieve the optimum effect, the product should be administered as a 3-month programme of treatment as a minimum. Feeding over a longer period is highly recommended.									

REGISTERED PRODUCTS FOR PROTECTION AGAINST PARASITES

Due to the plant-based ingredients and active substances in the Vet-Concept protection products, which are also suitable for preventing or killing off parasites, the following products are subject to the regulatory declaration requirements for biocides. Consequently, these products are marked with a safety symbol and with information on their correct handling. Use biocides* with care. Always read the label and product information prior to use.

ABWEHRLOTION*

For Dogs and Cats

Ticks, fleas, midges, lice

Non-ionic tensides, isopropanol, Macadamia ternifolia, Citrus limon, Lavandula angustifolia

DIREKTSpray*

For Dogs

Ticks, fleas, midges

Water, non-ionic tensides, sea salt

UMGEBUNGSSPRAY*

For Dogs and Cats

Ticks, fleas, midges

water, non-ionic tenside, Oleum Melaleuca alternifolia

COMPOSITION

ACTIVE SUBSTANCE

APPLICATION

PLEASE NOTE

Margosa extract 0.9%

Geraniol 1% (m/m)

Geraniol 1% (m/m)

For cats, use 1 to 3 drops once a week, for dogs, 3 to 6 drops according to the animal's size applied to the skin of the neck area (part the hair) and also apply to the base of the tail for dogs. Outside of season, the application period can be extended to every two to three weeks. For acute cases, apply once a day for three days. After washing your pet, the application must be repeated.

In the event of a parasite infestation, spray into the coat against the direction of hair growth for one week and gently massage into the skin. We recommend that this procedure is repeated after a few days. This solution can also be used to prevent a parasite infestation. Use once a week as a preventive measure. After washing your pet, the application must be repeated.

A flea treatment can only be effective if the animal's environment is also treated, since 80% of the parasites do not live on the animal and are found in the animal's immediate environment (carpets, baskets etc.). For severe cases of parasite infestation, spray all around the animal's living environment once a day for the first five days and then once a week. Pet's Environment Spray is completely non-toxic.

Not suitable for puppies or kittens under 16 weeks old or for suckling animals. Do not apply to recent wounds. In rare cases, this product may cause an allergic skin reaction. Never apply to the eyes or mucous membranes. Causes eye irritation. Do not ingest. Store out of the reach of children.

Not suitable for puppies or kittens under 16 weeks old or for suckling animals. Do not apply to recent wounds. In rare cases, this product may cause an allergic skin reaction. Never apply to the eyes or mucous membranes. Causes eye irritation. Do not ingest. Store out of the reach of children.

Do not apply to the animal. Can cause irritation of the skin and eyes. Do not ingest. Store out of the reach of children. For extremely delicate materials, we recommend that you perform a spot test in an inconspicuous place.

Rehydrating care of the skin and coat
Dandruff, dull coat
Dry and irritated skin

demineralised water, betaine, Rewoderm, oat straw extract, melissa oil, ylang ylang oil, jojoba oil

ZAHNCREME

For Dogs and Cats

Teeth cleaning & care
Plaque
Bad breath

Aqua Sorbitol, Silica, hydroxyethyl cellulose, titanium Dioxide, lactic acid, Citrus limon, saccharine, sodium benzoate, potassium sorbate

APPLICATION FOR DOGS

Shake the bottle. Unless prescribed otherwise, for acute cases, spray Vet-Concept Mineral Spray once a day all over the animal's coat against the direction of hair growth and massage in. Use once a week to treat and protect. Do not spray into the eyes.

APPLICATION FOR CATS

As cats tend to reject spray applications, we recommend that you coat your hands or a damp cloth with the spray and then apply it to your cat's coat or to the affected areas of skin. In acute cases, apply daily and then once a week as prevention.

In acute cases, apply Vet-Concept MINERSALBE to the affected areas several times a day.

For treatment and prevention, use two to three times a week.

Unless otherwise prescribed by your vet, in the event of symptoms, for a period of ten days, apply 3 to 4 drops of OHRENLOTION mornings and evenings into the outer auditory channel and massage in from outside (base of the ear). The loosened dirt will be shaken off by your pet. Apply once a week as a preventive measure

Used regularly, Vet-Concept OHRENLOTION helps to prevent mite infestation and ear inflammation.

In acute cases, apply to the affected areas several times a day. For prevention, apply two or three times a week.

Apply Vet-Concept SHAMPOO-KONZENTRAT evenly to a wet coat (use sparingly), use plenty of water to create a foam and massage into the coat against the direction of hair growth. If possible, leave to work for 5 minutes and then rinse out thoroughly.

To effectively prevent plaque, decay and paradontosis, clean your animal's teeth regularly (for prevention, at least once a week, for acute problems, once a day).

Place the enclosed rubber skin onto your index finger and clean the teeth and the gums thoroughly with the toothpaste.
